Ambattur , Chennai - 600 098.

ISO 9001:2015 CERTIFIED COMPANY

CARBON STEEL ROUND , HEXAGONAL & FLAT BAR

PRODUCT	:	CARBON STEEL	
APPLICABLE STANDARDS		ASTM A105 , ASME SA105	
DESCRIPTION		MS Bright Round Bars are available in sizes ranging from 10 mm to 100mm with make options including rolling, VSP, JSW or imported. Finding use in areas like engineering components, forging industries, foundation bolt as well as in shafting applications, the low carbon steel used do not contain any alloying elements with carbon content not exceeding 0.25%.	
DIAMETER RANGE (mm)			
10.00 to 100.00			
LENGTH (mm)			
10.00 to 100.00			
APPLICATIONS			
Automobile Components			
Gears			
Valves & Pins, Hydraulic Pumps			
Machining Tools			
Engineering Components			
Earth Rod			
Pump Shafts			
Piston Shafts			
Cylinder Shafts			
Valve Shafts			
Boat Shafts			
Bearing Bars			
PACKING			
Coils wrapped with stretch film and gunny roll with proper identification tags and colour code tape in coil weights from 100 - 1000 Kgs.
